It runs from Spokane, Washington, to Yakima, Washington, and serves primarily agricultural and resource companies in the Yakima Valley. Its rolling stock includes four GE ES44ACs, one former BNSF Diesel 8, a former BNSF GP38-2 and a P42MAC.

History The Yakima Railway was formed on August 14, 2011 when two groups of railroads completed a deal to re-acquire the Spokane-to-Yakima Railroad from a now bankrupt Class I company, Genesee & Wyoming Inc. The Class I had bought the Yakima Railway in 1995. This deal provided the Yakima Railway with \$36.6 million in new equipment and track. Yakima Railway ownership was transferred to the newly formed Yakima Industrial Railway, Inc. in late 2011. Following a bankruptcy in 2012, ownership of the Yakima Industrial Railway, Inc. was transferred back to the Yakima Railway on July 24, 2014.
