Screenshots Reviews A Game for the Simple, Paid for the Smart 5 By MihoMiho The game is easy to get into, challenging to keep up with and the playing experience keeps you hooked from beginning to end. Just don't take this game lightly because if you don't pay attention you will be quickly found out. If you are already knowledgeable then it could be a lot of fun. Uninspired 1 By Ditmars It's okay.

The controls are tight and work well enough. The graphics are plain. Sometimes it takes forever to load up a level and then, you never know whether your ship landed on the right spot or not. Overall, it's a decent time-waster. Moe 4 By Pp This is the 2nd autocad game that I've played. It's not bad either. Some of the levels can be very good, but there is a lot of glitches going on. One of the levels is so difficult because it gives you 10 second to free up the area and you just cant do it. I was like. "Ok let's just see what happens." as I lost (it doesn't seem like a lot of people lose though). But the more I play the more I'm going to get better. The tracks are really good. Idiomatic 1 By TikAjax Hey! you're giving away key gen. time waster 4 By turboz Not so bad. But then again, I'm not a fan of this type of game. The controls are well refined though a bit stiff. I've done various challenges and will keep on trying for more, but the story is kinda weird. Also, why give out the key to people who already have the game? Good 4 By Madraut It's good. It's not so hard but it takes long to beat the level and you need patience to solve it. I think it's a challenging game. I bought it after playing video game called sonic shooter. In that game you build your ship which is like the ship that you can play autocad. In this game you build your ship which is like the spaceship that you can play galaxy planets. Not so good 6d1f23a050
